7) have

8) is

Language is basically a system of
communication where sound signs ~~as~~
convey objects, a thing and idea.

~~The history~~ Language is primarily
spoken (taller) not written, ~~but~~ to
communication among people. Language
is necessary means of communication.
Language is an extraordinary gift
of god it is part of what makes man
fully human in fact, Aristotle says
man is a rational animal and what
sets him apart.

in these words language what made
the growth of civilization possible
The language is means of forming
and storing idea as reflections of
reality and exchanging them in the
process of human intercourse. Language
is social by nature and thus inseparably
connected with people who are its
creators and users. Now there are some
languages in world but on the other

hand around 25 languages die
every year. it's language does not
have any more sufficient compensation
in the ~~form~~ form of social and
psychological earnings. language
disappear. language distinguishes
men from the animal world because
language we can share ideas,
educate themselves and improve their
